

STONEBRIDGE ALLOTMENT SOCIETY

COMMITTEE MEETING 17th OCTOBER 2016

The following are a few items of interest from the business meeting held on 17.10.16.

THE AGM WILL BE HELD ON 9TH NOVEMBER IN THE GUILDHALL AT 7PM

The AGM is a chance for all members to participate in the decisions taken to maintain our unique site. Please come along and show your support for the improvements planned for the coming year. An Annual Report and Agenda has been sent to all email members and is posted on the web site, together with the minutes of the 2015 AGM circulated earlier. For those members without computer access, paper copies can be obtained from the Secretary by written request enclosing an SAE.

FAVERSHAM TOWN COUNCIL The first meeting of the new FTC Allotment Management Group (FTCAMG) took place on 20.9.16. For the latest information see the Annual Report.

THE APPLE DAY ON 9TH OCTOBER The day went ahead despite the early morning rain. Andy Freeman provided the BBQ, while Sally, Kieran, Sarah and Paul demonstrated apple processing and juice extraction. Members enjoyed the midday sunshine and BBQ.

WORK PARTY 16TH OCTOBER Further areas of bullrush were cleared to gain access to water, using the newly acquired underwater brush cutter, thanks to Bob Gomes and Noel Perkins. Ricky Roberts, Sally and Kieran Kerin cleared rubbish from the recently reclaimed brick store. This has now been surveyed and repairs will commence shortly. General clearance was delayed by the weather. The bonfire will be delayed a week.

AUTUMN BONFIRE IN ORCHARD Plot holders can still take any timber and dry non-compostable material and prunings arising from their plots, and add them to the one off bonfire this year. The bonfire will be lit late October, in suitable weather conditions.

THE WEB SITE IS NOW IN OPERATION containing information plus news updates on the front page: www.stonebridgeallotmentsociety.org

PLEASE REMEMBER THAT NO RUBBISH IS TO BE DUMPED IN THE MAIN ENTRANCE AREA
It is the plot holders responsibility to dispose of non-compostable rubbish off site.
